

A Practical Framework Approach to Change

Introduction ...

Business Change and Transformation approaches & strategies for organisations to enable them to drive through change initiatives/programmes and achieve considerable ROI and business benefit.

These bespoke approaches are designed to give you a flavour of some of the more necessary change components and associated tools & techniques that will require consideration during any change initiative.

A brief explanation ...

Modular ...

This means that the framework can be used in its totality or you can “pick and chose” which modules you want to use dependant on the change initiative

People Side of Change ...

Implicit in the framework are the following aspects:

**CREATING AN
ENVIRONMENT
FOR CHANGE**

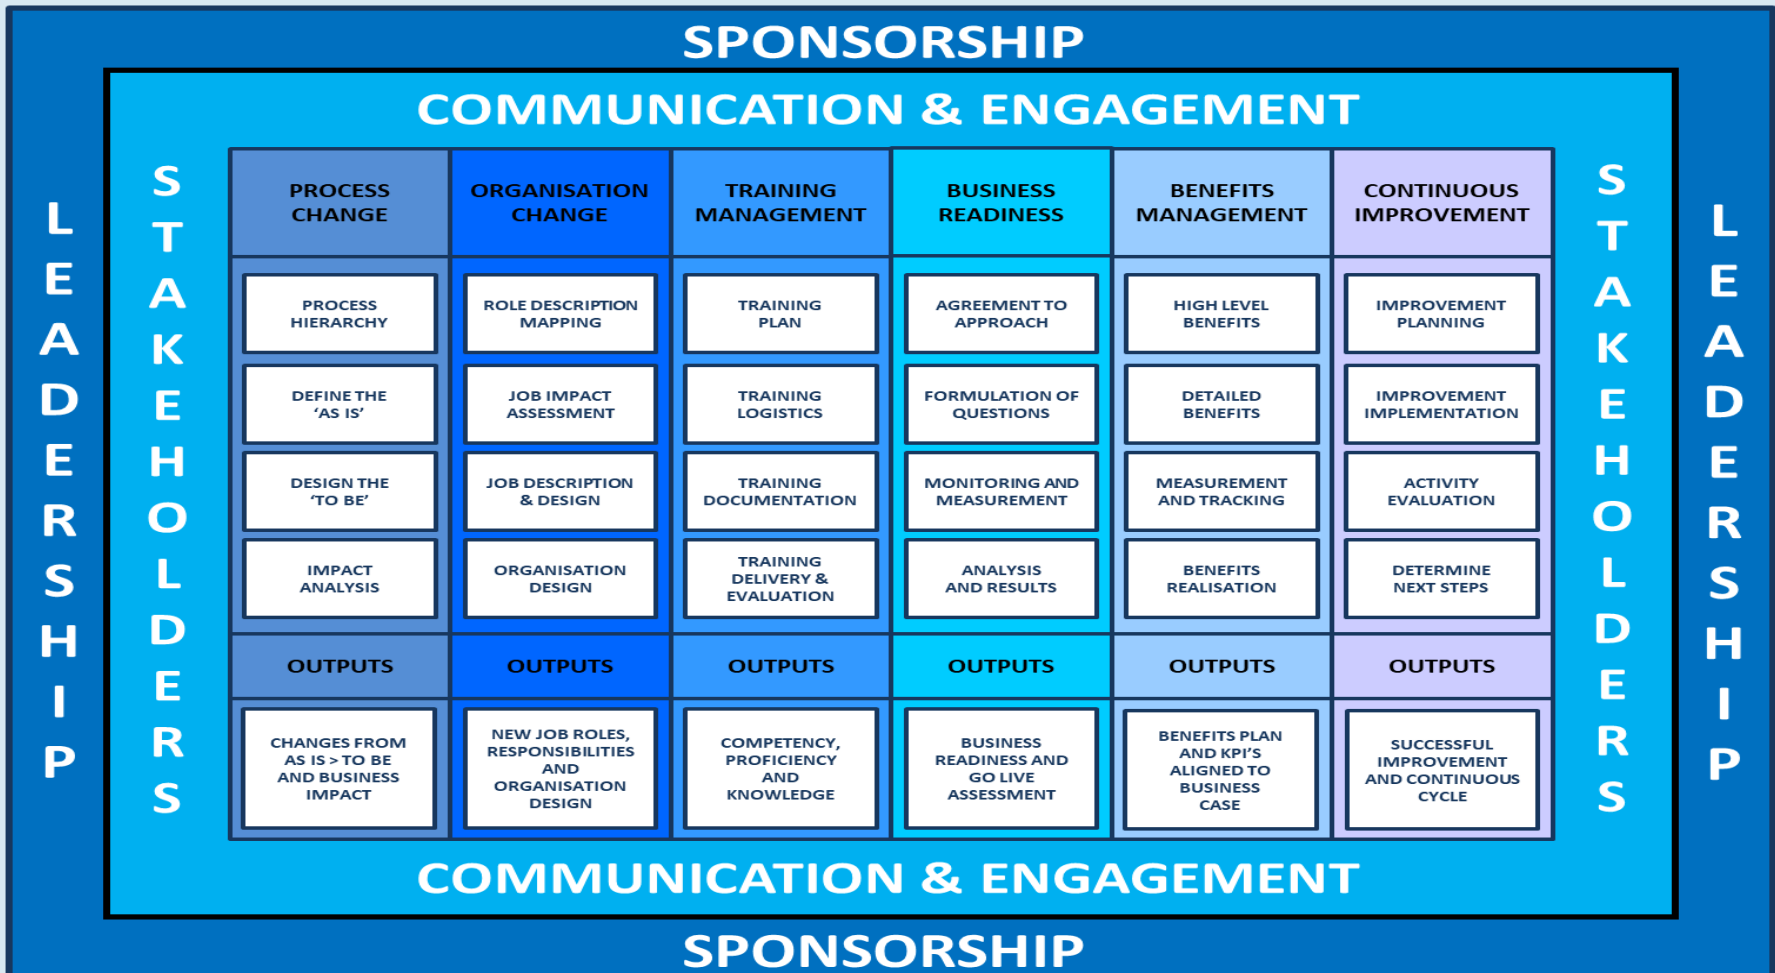

**MANAGING
CHANGE
RESISTANCE**

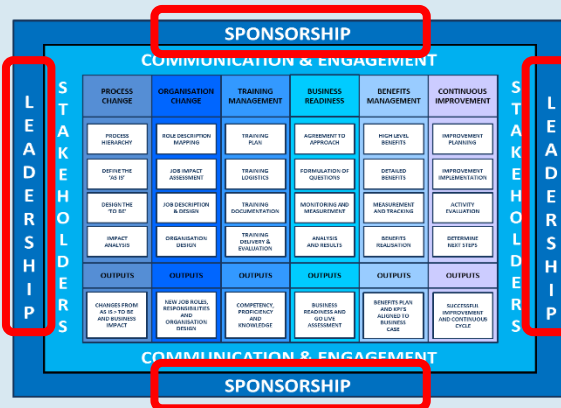

**ADDRESSING
ORGANISATION
CULTURE**

The high-level framework modules ...

Sponsorship/Leadership ...

Identify and work with a Sponsor and/or Leader to ensure commitment to the change initiative and to regularly engage with them in relation to their key responsibilities, visibility, building support, communication responsibilities, managing resistance, setting priorities and celebrating success.

Create a benefits plan and profile and define each benefit (and dis-benefit) and track its realisation throughout and after the change initiative to ensure that the original benefits as detailed in the Business Case have been/or are being realised.

Continuous Improvement ...

Design and implement a continuous improvement programme (Plan, Do, Check, Act) to regularly review changes to new ways of working brought about by the change initiative and implement efficiency improvements on a regular cyclical basis.
